

Written Proposal

Title -

A Sunset Mind

Format and Technical Considerations -

Live Action Video

HD 1080 16/9

Duration -

Between 1-2 minutes

Genre / Use of Conventions

Genre : Biopic

Use of footage taken over the summer using my phone.

Synopsis -

A teenage girl (playing me) goes for a stroll down her childhood village in early autumn whilst remembering the great memories she made over summer.

Characters -

Main character - Me (Lucy Emms) a typical teenage girl from south west england growing up in the countryside.

Locations / Sets -

The location is a village road (Hullavington - The Street & Hill Hayes Lane) surrounded by trees and greenery alongside cottages and houses with a pub. Scattered lampposts and a village bus-stop, as well as the village hall and bungalows. All of these factors are vital to my short film as they set the feel of a homely inviting village which promotes the loving warm feeling those sections of my video are meant to create.

Style -

My camera work will be motion from hand-held using a gimbal to assure that all of my shots are steady. I will also be using the videos from over the summer which are loads of different shots and angles.

Intended Audience -

My intended audience would be anyone over the age of 14 as there is some footage of alcohol and would not want to set a bad example for kids.
